

COVID-19 Response and Action Plan

As the coronavirus situation evolves in Alberta and around the world, we want to ensure all stakeholders that OSCO is aware of the seriousness of this extraordinary situation. We have been, and will continue to be, actively monitoring the latest developments from responsible and trusted sources.

OSCO is working to keep our staff, customers, and the general population safe and healthy by first and foremost following the advice of Public Health Agency of Canada and Alberta Health Services and any other advice given by the Government. Additionally, we continue to provide information regarding symptoms, testing and when necessary, self-isolation to all concerned, including via this post.

We continue to have employees working remotely with no disruption to our customers. The limited staff occasionally providing service are following government group limit guidelines and practicing social distancing. They have also been instructed in the required hygiene protocols and provided the necessary PPE to protect themselves and others.

We, like all of you, are actively monitoring the situation and its developments in a responsible manner for the safety of everyone.

**Thank you,
Don Moroz,
